

# FRICK INDIA

## MADE IN INDIA

*Screw Compressor Packages For  
Oil & Gas and Chemical Industry*

**Skid Mounted Screw  
Compressor Package  
for Ammonia/ LPG/  
Helium/ Propane/  
Butane/ CO<sub>2</sub>/  
Natural Gas/  
Biogas**

**Durable and Reliable**

**Support sustainability**

**Customized packages for special  
applications**

**Higher compression  
ratios and increased  
efficiency**

**Built to withstand  
harsh conditions**

**Design compressors for achieving high-  
performance next-generation standards**

**You Still can't Beat the System when it's all FRICK INDIA**

# 60+ YEARS LEGACY

In industrial excellence, Frick India Limited has emerged as a stalwart, setting unparalleled standards in the manufacturing of industrial refrigeration equipment and as a turnkey solution provider since 1962. Our biggest strength lies in our state-of-the-art manufacturing unit located in Faridabad, backed by in-house R&D, machining, quality assurance, and automation facilities.

We offer a comprehensive range of reliable and energy-efficient gas compression and refrigeration packages, which are extensively used in Oil & Gas, and Chemical sectors. Our skid-mounted screw compressor packages are designed to manage high-pressure requirements effectively for gases such as Propane, Butane, Helium, LPG, Ammonia, Natural Gas, CO<sub>2</sub>, Biogas. Due to their versatility and efficiency, our packages are well-suited for various applications across the upstream, midstream, and downstream segments of the oil and gas industry. Additionally, we prioritize environmental sustainability by using natural refrigerants in all our compressor packages.

## FRICK INDIA APPLICATIONS IN OIL & GAS INDUSTRY

### Manufacturing Excellence

- 4,22,514 Sq. Ft. State Of The Art Manufacturing Unit
- In-House Foundry
- In-House NABL Certified Lab

### Design Excellence

- Smart Software for 3D Modelling: AutoCAD, AVEVA PDMS
- Thermal / Mechanical Design: HTRI, PV Elite
- Smart Plant P&ID: SolidWorks

### Quality Assurance

- Hydro Testing
- Pneumatic Pressure Test
- Mechanical run test
- Performance Testing

### Benefiting Customers

- Installation & Commissioning
- Backed by Strong Industrial Service Team
- On-Site and Off-Site Trainings
- Spare Parts Available
